Career Objective

Dedicated Computer Science and Engineering graduate with hands-on experience in full-stack web development and software engineering internship. Proficient in ASP.NET, Angular and SQL-based databases, with a strong foundation in object-oriented programming and RESTful services. Highly motivated to begin my professional career as a software engineer and contribute to the development of innovative, efficient and scalable software solutions.

Education

Bachelor of Science in Computer Science and Engineering (BSc. CSE)

American International University-Bangladesh (AIUB), Dhaka | 2022 – 2025 | CGPA: 3.57/ 4.00

Higher Secondary Certificate (HSC)

New Govt.Degree College, Rajshahi | 2017 – 2019 | GPA: 5.00/ 5.00

Secondary School Certificate (SSC)

Shiroil Govt.High School, Rajshahi | 2015– 2017 | GPA: 5.00/ 5.00

Experience

Software Engineering Intern (.NET Team)

ERA-InfoTech Limited, Dhaka | July 2025 – October 2025

- Worked with the .NET Development Team on enterprise-level software projects in an industry environment.
- Contributed to full-stack web development using ASP.NET Web API for backend services and Angular for frontend interfaces.
- Worked on FlowCraft ERP modules and reviewed procurement workflows.
- Assisted in feature implementation, debugging and application maintenance.
- Gained hands-on experience with Git version control and collaborative development workflows.
- Collaborated closely with senior developers and cross-functional teams in a professional software development environment.

Technical Skills

Core Areas

- Expertise in building web applications using Angular, ASP.NET Web API and SQL Server.
- REST API Integration & Responsive UI Development.
- Database Management Systems (DBMS).
- Object-Oriented Programming (OOP).
- Problem Solving & Logical Thinking.

Programming Languages: C#, JavaScript, PHP, TypeScript, C++, Python.

Frameworks & Technologies: .NET, Angular, HTML, CSS.

Databases: SQL Server, MySQL, Oracle, PL/SQL.

Tools & Software: Visual Studio, VS Code, SQL Server Management Studio, Microsoft Office, Figma, Draw.io, AutoCAD.

Soft Skills: Effective Communication, Collaboration, Critical Problem Solving, Leadership, Analytical Thinking.

Projects

E-Commerce Website

-Developed a full-stack e-commerce application using Angular and ASP.NET Web API with SQL Server, implemented user authentication, product catalog, cart, order management and responsive UI.

Bank Management System

-Built a dynamic and responsive web application to manage customer accounts, transactions, and loan services. Implemented strong validation, user authentication, and role-based access control. Technologies used include PHP, HTML, JavaScript, and MySQL.

Restaurant Management System

-Developed a web-based restaurant management system for order processing, billing, and table reservations.
- Designed an interactive and user-friendly interface to improve order management efficiency.
-Technologies used: HTML, CSS, JavaScript, PHP, MySQL.

Blood Cell Image Classification Using Machine Learning

-Used machine learning to classify RBCs, WBCs, and platelets from microscopic images. Tools: Python, Google Colab.

Fish Disease Detector

-Developed an AI-based system to detect fish diseases from images and suggest treatments. Followed the Incremental Process Model with full software engineering documentation (use case, class, activity, sequence diagrams). UI designed in Figma. Technologies: Figma, Draw.io, Microsoft word.

Diagnostic Management System

-Built a diagnostic management system using C# and SQL Server. Tools: Visual Studio, SQL Server Management Studio.

Five Time Prayer Scenario

-Implemented basic computer graphics concepts to visually simulate the five daily prayer times (Computer Graphics course project developed using C++ and Codeblocks).

Ridesharing Management System

-Designed a database-driven system to manage users, drivers, trips and transactions using advanced DB concepts (Advance Database management system course Project).

E-Learning Platform Management System

-Developed a structured platform for managing courses, users and learning activities following standard project management practices (Software Development Project Management Course Project).

Honors and Achievements

Certificates

-Cisco Networking Academy-IT Essentials from Cisco Networking Academy [28 May 2022].
-Internship Completion Certificate from ERA-InfoTech Limited [29 October 2025].

Learnathon 3.0 Participant 2025

-Engaged in a tech-driven learning experience, collaborating on innovative solutions and enhancing problem-solving and coding skills.

Language Proficiency

Bengali: Native (Fluent in reading, writing, speaking, and listening).

English: Proficient (Fluent in reading, writing, speaking, and listening).

Hobbies and Interests

-Conducting research projects.
-Exploring and mastering new programming languages.
